We also have recently opened a specialist Post 19-day college provision that is registered as a satellite of and working alongside Beaumont College in Lancaster.

At IMS we work as one team to make a difference to the lives of our students. Our aim is to enable students to take responsibility for their own lives in whatever form this takes.

Within IMS we have three different cohorts that share a common location and ethos but which have separated access.

Students are offered a variety of specialist support from highly trained staff, working alongside our teachers.

Each student accesses the curriculum daily with a bespoke package of intervention, therapeutic support or through one-to-one teaching and this allows them to make considerable progress towards their EHCP outcomes.

We are a centre for Conductive Education and offer this to our students with complex physical needs. This is led, in class, by approved Conductors to enable students to learn more specific and complex physical actions which will be learnt naturally by most children.
